Ratify the Treaty.

Senator Phelan voiced the highest type of Americanism when

"We acted with magnanimity in the war; we shall not assume a mean and pusillamimous part in the constructivework of peace."

Accredited as a leader of the great American movement to har the Japanese from this country and to curb their ambitions in the Pacific, Senator Phelan was broad enough to set aside his personal feelings and take the very proper stand that the league of nations pact will guarantee to China the relief she may seek in the Shantung matter. Senator Phelan is not a candidate for President and, so far as we know, has no candidate for that office. He acted as every other Senator ought to act, free from personal ambition. He accepts the league of nations as the most belpful instrument for world peace.

No Senator has approached the true statesmanship of Senator Phelan in dealing with the treaty. His speech, unquestionably, had much to do with the defeat of the Shantung amendwent, which also seals the fate of all other amendments.

Opponents of the weaty are defeated. If they had observed public sentiment they would have realized that defeat was inevimble. A few of the Senators who are placing politics above the seople's interests will continue to make a fight for reservations. Their sole purpose is antagonism to the President. They know that the people want the league of nations, but having lost the fight for amendments, now hope to save their faces by putting

While we believe that it will be impossible for the obstructors to even put through reservations, yet there is danger of some Senators treating the proposition lightly and carelessly voting. Reservations are dangerous.

The obstructors have halted a return to normal industrial and social conditions long enough. The world pleads for peace. There can be no peace while American Senators play their selfish little game of politics. True, they will be made to suffer for their acts, but their political heartaches later on are nothing as compared to the suffering of the world today.

If there are Republican, Progressive and other Democratic Senators who can rise to the standard of Senator Phelan we shall speak of them as praisefully as we have of him.

Drop the idea of reservations or interpretations, gentlemen, and ratify the greatest pact in the history of the world. Let us have peace.

We have no concrete, irrefutable evidence that Germany is conducting a Baltic campaign except the fact that she denies it.

Blue Sky and Sky High.

Too much "blue sky" is responsible for a very large part of the "sky-high" prices we are having to pay today for the privilege of living, in the opinion of Chairman W. B. Colver of the Federal Trade

So called "legitimate" business, Colver finds, is extending itself along lines so saturated with ozone that it is almost impossible to distinguish between them and purely wildcat, speculative financing. ated by high prices and prospective high profits, many concerns Charleston News and Courier. are issuing securities to cover extensions and developments on terms whereby the stockholders are virtually as certain to lose, should prices ever again return anywhere near the old normal, as if they sunk their savings in a "duster" in some mid-Western oil field. If the stocksavings in a "duster" in some mid-Western oil field. If the stock- have holders do not lose, the public is bound to, for it will be required to pay a return on millions that never represented productive capital, and thus help prop up the whole structure of inflated prices.

"Just the other day in New York." Colver cites in substantiation of his claim, "a substantial, going business concern, needing money rot it on these terms:

"It issued its securities, which were taken by the underwriters at 30. The underwriters passed them on to a syndicate of subunderwriters at 53-a profit of 76 per cent. The subunderwriters passed them on to brokers at 82-a profit of 54 per cent. And the brokers passed them on to the public, to you and me and the man on the street at par-a profit to the broker of 22 per cent.

"When the investor, eschewing anything that appeared like bluesky securities, read the prospectus of a going concern in legitimate need of funds for expansion, and chose those securities, he did not gium and propose a republic.—Waco know that out of his \$100 only \$30 would reach the concern in which he thought he was investing and that \$70 of his \$100 would never become productive invested capital.

"Transactions like that are not going to lower the cost of living.

"Everything has been said that can be said on every vital subject," declares Colonel House. Tell it to the Senate.

A Real Hero.

Our idea of a 1919 peace-time hero is Rudolph Brenck, of New Britain, Conn., who doubled his family of eight children by marrying emerge from well again. Mrs. Annie Newfield, mother of another eight children. Thus starting their new matrimonial venture with sixteen children

in the family. In these days of high living costs the undertaking of feeding, clothing, educating eight children is a man's-sized job. Doubling the

task is an achievement worthy of the superman. Also, while we are distributing medals to Mr. Brenck let us hand a few to the new Mrs. Brenck, who will sew, mend, darn, and do a

thousand and one things for sixteen instead of eight. Surely peace has her heroes-and heroines!

The reason the Japanese can't understand our policy in Siberia is because they can't see where we expect to get our profit,

Meat As Usual.

Cattle, sheep and swine in nine European countries have decreased, according to statistics just published by the United States Department of Agriculture, "but have increased in other countries, including the United States, so that the present situation with respect to numbers is very much the same as before the war."

That means there are as many meat-producing animals in the world today as there were when the war began. Prices, however, do not indicate this. What prices do indicate is that producers, packers, retailers have lost sight of the "law of supply and demand."

America can best help the backward peoples of the earth by keep ing herself free of their quaint theories and fatal 'isms.

NEW YORK CITY By O. O. McINTYRE

New York. Oct. 17.—It is possible that the future theatres in New York will be without galleries or second tiers. That foot-stamping, howling, whistling gallery god of yesteryear is no more. He either sits down in the helegay or the rests to the

He is an old time copy-reader on Park Row. Years and years in the City Room have furrowed deep lines in his face and whitened his hair. The young reporters smile at his extreme over-carefulness and call him "Methuse." They do not understand why he calls them over six or seven times on a single "take" of seven times on a single "take" of copy to say: "Are you sure of the name and address?" "Is that just what he said?" "You are certain there is no libel?" It does seem like excessive over-zealousness, but wait until they grow old on the copy desk and they will understand "Old Methuse" has a wife and six children and he's paying for a home over in Jersey. Every man who grows gray

Bought at Low Figures in New in the newspaper service has the same haunting fear—the fear of the same naunting lear—the fear of the Blue Envelope. For, after all, it is a young man's game and the older men realize they have to fight every inch of the way to hold their jobs. A mistake—well, perhaps no one

I am always impressed when I I am always impressed when I lenter the perfumed atmosphere of Fifth Avenue by the gorgeous names of the flossy establishments there. On top of a bus the other afternoon I jotted down some of them in my note-book. Here they are with no changes: Betty & Anne; Charles of London; Dorothy Gray; Maison Simone: Lady Jane; Mme. Francols; Henri: Maison Sarah Rosenblatt de Paris; Jonas; Manyaka of Pekin; Jonas: Manyaka of Pekin; Desti Salon de Beauty; Mme. Mohja Mogabgabgab and Edyth Smythe.

Seen on the gravel path around Central Park's reservoir: "A red the Federal Subtreasury if head" girl walking in her stockings. Fay Bainter and a wolf-hound. Lilinings his fay Bainter and a wolf-hound. Lilinings his fay Bainter and a wolf-hound. Lilinings his fay bear in mind that even garments do not always fit. Townsend and John McK. Bowman. in sweaters, walking fast. A stray three-legged cat.

the balcony or in the orchestra cir-cie, or he goes to the movies. Sev-eral theatres have already closed up their gallaries due to the lack of patronage.

Shuffling, pushing, good natured lines that formed in the back alleys to applaud the marcelled heroes and frail heroines from on high simply do not form now. They enter the marble entrance out, front and perhaps wear a silk topper and an evening suit.

haps wear a silk topper and an evening suit.

There are many reasons for the decline of the gallery's popularity. The beginning came with the fall of the ten-twent-thirt where the villain pursued her through the five acts beginning in Old Mag's under Brooklyn Bridge, scurrying through the Hells of Chinatown, and ending up at the old farm—just at sundown, when faithful old Joe takes her back in his arms.

These melodramas were a lot of fun. They gave cause for cheering and whistling and hissing. But with the advent of the problem play things were different. No self-respecting gallery god could cheer a snappy epigram or whistle at a Shavian come-back from the heroine. So the gallery god turned to the movie and you will find him there almost every night, and he is much happier. He can take his girl and not be ashamed as he was in the gallery—and he can hold her hand all through the five reels.

The gallery gods, too, were composed mostly of young clerks, messenger boys, errand boys, and all sorts of young men taking their first grip on the business ladder. Salaries in those Horatio Algeric days were \$4 per week—now the same type of boys get \$15 and \$20. So they can sit any place they please if they prefer the so-called legitimate to the moving pictures.

Eight fer a Quarter.

A bunch of suburbanites were discussing the proposed increase of street railway fare and the wretched service given by the Wrecko. WILLIAM L. HULL, who recently returned from a trip through the Middle West, said:

"It's all bunk' about the Washington roads being unable to operate at a, pradit with a five-cent fare. The proposed increase smacks of profiteering. Why, out in Columbus, Ohio, they have a splendid railway system with plenty of cars and a quick time schedule. Wages are high there, but the roads sell eight tickets for a quarter with free transfers and the stockholders are making good profits on their investments."

"Bencep" Has Great Capacity.

westments."

"Dencon" Has Great Capacity.

A colored man known as "the Deacon," who lives out Berwyn way has a wonderful capacity for "booze" according to his own admission in the police court. When Clerk CAMPBELL HOWARD called out the "Deacon," name that indicate the "Deacon," name that indicate the conclusion revers the memory.

Clerk CAMPBELL HOWARD called out the "Deacon's" name that individual fairly leaped into the arena in front of Judge McMAHON'S platform. He wore a broad smile of the brand that won't wear off and answeerd to his name with a merry "ha, ha."

He was charged with intoxication, and it was plainly evident that the "jag" of the night before was still in evidence. Innocently enough he informed the court that he had only drank a gallon of very hard cider before leaving Berwyn to come to this city.

"Out our way," he explained, "we has a brand ob cidah wid a strong kick an' we calls it "Prince George champagne."

The "Deacon" was convicted and sentenced to pay a fine og \$15 or in default, 15 days at Occoquan.

Story of An Editor.

A rare treat is promised the members of the Columbia Histori-cal Society and their friends at the next meeting of that valued organ-ization, the evening of October 21, at the Cosmos Club Assembly Hall.
